

Textile eccentric roller bearing 200752305 Double row eccentric roller bearing

Textile eccentric roller bearing 200752305 Double row eccentric roller bearing

Payment & Delivery

1. Payment:

- 1) TT, 30% deposit, 70% before delivery.
- 2) 100% Western Union or Paypal in advance. (specially for air shipment or small amount)

2. Delivery:

- 1) Less than 45 KGS, we will send by express. (Door to Door, Convenient)
- 2) Between 45 - 200 KGS, we will send by air transport. (Fastest and safest, but expensive)
- 3) More than 200 KGS, we will send by sea. (Cheapest and usual)

Parameters

Overall eccentric bearing , also known as eccentric bearing, is a type of bearing a very useful. Includes an outer ring, inner ring, rolling baskets , rolling , eccentric bearing structure overall simple , easy to use, does not require the eccentric shaft can achieve eccentric features greatly simplify the eccentric mechanism , while the eccentric machining labor organizations , time-saving , easy assembly , reducing manufacturing costs eccentric mechanism .

Overall eccentric bearing features: the inner bore of the eccentric hole in the inner wall of the eccentric hole has a longitudinal keyway.

Overall eccentric bearing applications : . Reducer , petrochemical textile, metallurgy , mining steel mills and other heavy machinery.

Model Number						200752305						
Brand Name						NTN / KOYO / NACHI						
Structure						Eccentric bearing						
Type						Ball						
Boundary Dimensions						mm						
Material						Chrome Steel ,Carbon steel,Stainless steel available						
Cages Material						Nylon ,steel , brass available						
Weight(kg)						kg						
Application						<ul style="list-style-type: none"> • Reducer. Textile, metallurgy, mining . Mills , petrochemical, • Light and heavy machinery 						
Certifications						ISO 9001:2008						
Place of Origin						Shandong,China (Mainland)						
Bearing NO.	Mainly Dimension (mm)					Rated Load (N)		Limited Speed (rpm)		Keyway		Weight (kg)

All bearings types & Models

Thrust Ball Bearing, 511,512,513,514 SERIES;

Deep Groove ball bearing,6000series,6200series,6300series,6400series,160series,618,619series,60.62.63mini series, 622,623 series..etc.

Tapered Roller Bearing, 302,303,313,322,323,329,320,330,332 series, both Metric and Inch size available;

Spherical Roller Bearing, 222,223,230,231,232 series;

Cylindrical Roller

Bearing

,N2,N22,NF2,NF22,NF3,NF23,NF4,NU10,NU2,NU22,NU3,NU23,NU4,NJ10,NJ2,NJ22,NJ3,NJ23,NJ4,NUP2,NUP22,NUP3,NUP23,NUP4,NN series;

Pillow Block Bearing,UC, UCP,UCF,UCT,UCFL,UCFC,U CPA,UCPH,UCC, UCHA SERIES,

Needle roller Bearing,3NA49, NA492RS,NA69,NA692RS,HK,HK2RS, K SERIES,

Angular Contact Ball bearing,70,72,73,74 series,

Slef-Aligning ball bearing, 12,13,22,23 series,
